

Top 100 Codes

Preplnsta Top 100 Codes

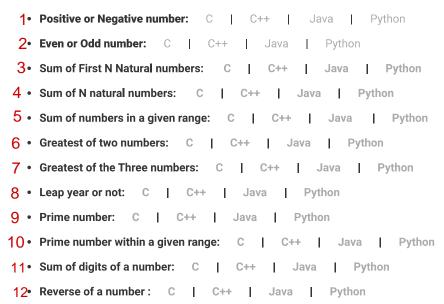

Below You will find some of the most important codes in languages like C, C++ and Java. These codes are of prime importance for college semester exams and also for various online tests and interviews of the companies offering placements within varying range in LPA.

These codes are very important since these will help you clear your basic concepts in various languages.

Getting Started

- Introduction to Top 100 codes
- ASCII Table

13•	Armstrong number: C C++ Java Python
14	Armstrong number in a given range : C C++ Java Python
15.	Fibonacci Series upto nth term: C C++ Java Python
16•	Find the Nth Term of the Fibonacci Series: C C++ Java
	Python
17•	Factorial of a number: C C++ Java Python
18•	Power of a number: C C++ Java Python
19•	Factor of a number: C C++ Java Python
20	Finding Prime Factors of a number : C C++ Java Python
21•	Strong number: C C++ Java Python
22.	Perfect number: C C++ Java Python
23 •	Perfect Square: C C++ Java Python
24•	Automorphic number: C C++ Java Python
25•	Harshad number: C C++ Java Python
26 •	Abundant number: C C++ Java Python
27 •	Friendly pair: C C++ Java Python

Working with Numbers

28 •	Highest Common Factor(HCF): C C++ Java Python				
29 •	Lowest Common Multiple (LCM): C C++ Java Python				
30•	Greatest Common Divisor: C C++ Java Python				
31 •	Binary to Decimal to conversion: C C++ Java Python				
32•	Octal to Decimal conversion: C C++ Java Python				
33 •	Hexadecimal to Decimal conversion: C C++ Java Python				
34.	Decimal to Binary conversion: C C++ Java Python				
35•	Decimal to Octal Conversion: C C++ Java Python				
36•	Decimal to Hexadecimal Conversion: C C++ Java Python				
37.	Binary to Octal conversion: C C++ Java Python				
38	Octal to Binary conversion: C C++ Java Python				
39 •	Quadrants in which a given coordinate lies: C C++ Java				
	Python				
40•	40 • Permutations in which n people can occupy r seats in a classroom : C				
	C++ Java Python				
41•	Maximum number of handshakes: C C++ Java Python				
42.	Addition of two fractions: C C++ Java Python				
43•	Replace all 0's with 1 in a given integer: C C++ Java				
	Python				

	Java Python
44 •	Count possible decoding of a given digit sequence : $\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ $
	Python
45.	Calculate the area of a circle: C C++ Java Python
46 •	Find the prime numbers between 1 to 100: C C++ Java
	Python
47 •	Calculate the number of digits in an integer: C C++ Java
	Python
48 •	Convert digit/number to words: C C++ Java Python
49 •	Counting number of days in a given month of a year: C C++ Java
	Python
50	Finding Number of times x digit occurs in a given input : C C++
	Java Python
51 •	Finding number of integers which has exactly x divisors: C C++
	Java Python
52•	Finding Roots of a quadratic equation : C C++ Java Python

Codes for Recursion

```
53 • Power of a Number - C | C++ | Java | Python
54 • Prime Number - C | C++ | Java | Python
55 • Largest element in an array - C | C++ |
                                             Java Python
56 • Smallest element in an array - C | C++ |
57 • Reversing a Number - C | C++
                                    Java
                                              Python
58 • HCF of two numbers - C | C++ |
                                        Java
                                               Python
59 • LCM of two numbers - C | C++
                                     Java
                                              Python
60 • Program to calculate length of the string using recursion- C | C++ | Java
     Python
61 • Print All Permutations of a String- C | C++ | Java | Python
62 • Given an integer N the task is to print the F(N)th term.- C | C++ | Java |
     Python
63. Given a list arr of N integers, print sums of all subsets in it- C | C++ |
       Java | Python
64. Last non-zero digit in factorial- C | C++ | Java | Python
65 • Given a positive integer N, return the Nth row of pascal's triangle - C | C++ |
       Java Python
```

	generate all combinations of well-formed(balanced) parentheses - C C++	
	Java Python	
66 .	Find the Factorial of a number using recursion - C C++ Java	
	Python	
67 •	Find all possible Palindromic partitions of the given String – C C++ Java	
	Python	
68 •	Find all the N bit binary numbers having more than or equal 1's than 0's - C C++	
	Java Python	
69 •	Given a set of positive integers, find all its subsets - C C++ Java	
	Python	
70 .	Given a string s, remove all its adjacent duplicate characters recursively – C C++	I
	Java Python	

Important Codes related to Arrays

71 • Find Largest element in an array: C C++ Java Python
72 • Find Smallest Element in an Array: C C++ Java Python
73 • Find the Smallest and largest element in an array: C C++ Java
Python
74 • Find Second Smallest Element in an Array: C C++ Java
Python
75 • Calculate the sum of elements in an array : C C++ Java
Python
76 Reverse an Array: C C++ Java Python
• Sort first half in ascending order and second half in descending : $^{\circ}$ C $^{\circ}$ C++
Java Python
78° Sort the elements of an array: C C++ Java Python
79 • Finding the frequency of elements in an array : C C++ Java
Python
80 • Sorting elements of an array by frequency: C C++ Java
Python
81 • Finding the Longest Palindrome in an Array: C C++ Java
Python
2 • Counting Distinct Elements in an Array: C C++ Java
Python

Python

83 •	Finding Non Repeating elements in an Array : C C++ Java			
	Python			
84 .	Removing Duplicate elements from an array: C C++ Java			
	Python			
85•	Finding Minimum scalar product of two vectors : C C++ Java			
	Python			
86 •	Finding Maximum scalar product of two vectors in an array : $\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ $			
	Java Python			
87•	Counting the number of even and odd elements in an array : $^{\circ}$ $^{\circ}$ $^{\circ}$ $^{\circ}$			
	Java Python			
88•	Find all Symmetric pairs in an array : C C++ Java Python			
•	Find maximum product sub-array in a given array : C C++ Java			
	Python			
89 •	Finding Arrays are disjoint or not : C C++ Java Python			
90 •	Determine Array is a subset of another array or not : C C++ Java			
	Python			
91 •	Determine can all numbers of an array be made equal : C C++			
	Java Python			
92 •	Finding Minimum sum of absolute difference of given array : $\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ $			
	Java Python			
93 •	Sort an array according to the order defined by another array : $\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ $			
	Java Python			
94 •	Replace each element of the array by its rank in the array : $\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ $			
0.5	Java Python			
95	Finding equilibrium index of an array: C C++ Java Python			
96 •	Rotation of elements of array- left and right: C C++ Java			
	Python			
97 •	Block swap algorithm for array rotation : C C++ Java			
	Python			
98 •	Juggling algorithm for array rotation: C C++ Java Python Finding Circular rotation of an array by K positions: C C++ Java			
99 •				
	Python			
100	Balanced Parenthesis Problem: C C++ Java Python			

Operations on Strings

•	Check whether a character is a vower or consonant.
	Python
•	Check whether a character is a alphabet or not : C C++ Java
	Python
•	Find the ASCII value of a character: C C++ Java Python
•	Length of the string without using strlen() function: C C++ Java
	Python
•	Toggle each character in a string: C C++ Java Python
	Count the number of vowels: C C++ Java Python
•	Remove the vowels from a String: C C++ Java Python
•	Check if the given string is Palindrome or not: C C++ Java
	Python
•	Print the given string in reverse order: C C++ Java Python
•	Remove all characters from string except alphabets : C C++ Java
	Python
0	Remove spaces from a string : C C++ Java Python
•	Remove brackets from an algebraic expression : C C++ Java
	Python
•	Count the sum of numbers in a string : C C++ Java Python
•	Capitalize the first and last character of each word of a string : $\ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ \ $
	Java Python
•	Calculate frequency of characters in a string: C C++ Java
	Python
	Find non-repeating characters in a string : C C++ JAVA
	Python
•	Check if two strings are Anagram or not : C C++ Java
	Python
•	Replace a sub-string in a string: C C++ Java Python
	Replacing a particular word with another word in a string - C C++
	Java Python
•	Count common sub-sequence in two strings : C C++ Java
	Python
•	Check if two strings match where one string contains wildcard characters : C
	C++ Java Python
•	Print all permutations of a given string in lexicographically sorted order : C
	C++ Java Python

Advanced Codes related to Arrays

orven an array which consists of only o, I and 2. Gott the array without using	any algorithm
C C++ Java Python	
Find the "Kth" max and min element of an array - C C++ Java	Python
Move all the negative elements to one side of the array – $$ C $$ $$ C++ $$	Java
Python	
Find the Union and Intersection of the two sorted arrays. – $^{\circ}$ C $^{\circ}$ C++	Java
Python	
Find Largest sum contiguous Subarray - C C++ Java P	ython
Minimize the maximum difference between heights - C C++	Java
Python	
Minimum no. of Jumps to reach the end of an array - C C++ J	Java
Python	
Find duplicate in an array of N+1 Integers - C C++ Java	Python
Merge 2 sorted arrays without using extra space C C++ Jav	/a
Python	
Kadane's Algorithm - C C++ Java Python	
Merge Intervals - C C++ Java Python	
Count Inversion - C C++ Java Python	
Best time to buy and Sell stock - C C++ Java Python	
Find all pairs on integer array whose sum is equal to given number –	C++
Java Python	
Find if there is any subarray with sum equal to 0 - C C++ Java	a [
Python	
Find factorial of a Large Number - C C++ Java Python	
Find common elements In 3 sorted arrays - C C++ Java	Python
Rearrange the array in alternating positive and negative items with $O(1)$ extra	space - C
C++ Java Python	
Given an array of size n and a number k, find all elements that appear more th	an " n/k " times.
- C C++ Java Python	
Maximum profit by buying and selling a share atmost twice – $^{\circ}$ C $^{\circ}$ C++	Java
Python	
Next Permutation – C C++ Java Python	
Find longest consecutive subsequence - C C++ Java P	ython
Trapping Rain water problem - C C++ Java Python	
Chocolate Distribution problem – C C++ Java Python	

Python

Three way partitioning of an array around a given value - C | C++ | Java Python
 Minimum no. of operations required to make an array palindrome - C | C++ | Java | Python
 Median of 2 sorted arrays of equal size - C | C++ | Java | Python
 Median of 2 sorted arrays of different size - C | C++ | Java | Python

Codes related to Matrix

•	Spiral traversal on a Matrix - C C++ Java Python
•	Search an element in a matrix - C C++ Java Python
•	Find median in a row wise sorted matrix - C C++ Java Python
•	Find row with maximum no. of 1's - C C++ Java Python
•	Print elements in sorted order using row-column wise sorted matrix - C C++
	Java Python
•	Find a specific pair in matrix - C C++ Java Python
•	Rotate matrix by 90 degrees - C C++ Java Python
•	Kth smallest element in a row-column wise sorted matrix – C C++ Java Python
•	Common elements in all rows of a given matrix - C C++ Java Python
